Comments

We needed to use the Total Corrected Elapsed Time as defined in the sailing instructions to determine every OA position in the spinnaker fleet. 2 boats were tied for first with 3 points. 4 boats were tied for 3rd place with 9 points. The tie for third was broken between the 2 boats having a 3rd place best finish in one of the 2 races. The tie for 5th place was broken between the 2 boats having a 4th place best finish in one of the 2 races. The boat Apothecary is the ONLY boat to have competed in EVERY Beaver Island of LaBlance Memorial race. This was the first Beaver Island race for 3 boats (Just Right II, Just Messin, and Padawan III). Saturday's race was the longest length we have had to sail on the way over to the island, since the wind came "on the nose" with about half of the race to complete. More tacks than any other first day.

A great time was had by all participants !!!!!
