

CHARLEVOIX YACHT CLUB
209 Ferry Avenue
Charlevoix, MI 49720

April 25, 2021

Dear CYC Members,

The new Charlevoix Yacht Club building is a flurry of activity as the building is getting closer to completion. The next 6 weeks will require patience from us to stay out of the way of the construction teams and out of the building. On the exterior, they are finishing grading, starting concrete for curbs and sidewalks. The asphalt for the parking lot is scheduled for mid-May. Inside, the trim, paint and floors are being stained and sealed. The elevator is being installed starting in May, along with finalizing the plumbing, electrical, AV, heating and cooling systems.

We have had multiple committees guiding the interior design, furniture and memorabilia from our existing clubhouse to be included in the new building. We are so fortunate to have so many people interested in our great club and community.

As we continue towards the big day, we have paused plans for a Grand Opening Celebration due to current restrictions related to COVID. We will find a way to safely have this event in the future. Meanwhile, we are working on plans to have the necessary ceremonies to allow us to enjoy our new space. We are hoping to move to the new clubhouse on the Topside at 220 Ferry Avenue in early June. We are planning to open the New CYC Clubhouse on Wednesdays for racing through October, Friday and Saturdays for the remainder of the year.

Stay tuned and be ready to participate in our new facility when the time comes. It is what will make the place truly special.

A handwritten signature in black ink, appearing to read 'JPK', with a stylized flourish at the end.
